Dear parents, carers and families,

I hope that this week you have been able to find the time to read through the newsletters sent out by the class teachers. These are designed to give you an insight into what your child will be learning during the spring term in the different area of the curriculum. As always, the staff will be trying to make the different areas of learning as interactive and as exciting as possible! Please remember that staff will always find the time to talk to you about your child and their learning – please contact the school office either by phone or email and they will arrange a convenient time to meet.

This term, we are hoping to focus on important aspects of your child's development such as their well-being and resilience as well as getting into good habits of exercise for their physical as well as mental health! Mrs Bennett will be sending information home regarding a new launch of 'Street Tag' for Cumbria in the next few weeks. We hope this will be something that you and your child can enjoy together!

This term, we are also hoping to invite 'Science made simple' into school for some excellent workshops linked to their science learning. There will be one aimed at the Y3/Y4 classes and another aimed at Y5/Y6. We are able to afford this as we have been fortunate to receive funding from bids we have made to the Barrow Engineering Project and a local business, Orcina.

Please keep an eye on our facebook page for photos and videos of your child's achievements this term!

Take care, stay safe,

DR

David Reddy
(Headteacher)
