## Hygiene & Behaviour Expectations September 2021

- No child should attend school if they show any symptoms of Covid 19 (high temperature, persistent cough, loss of taste and/or smell)
- Families must adhere to new (16.08.21) self-isolation guidance if **any** member of their household shows any symptoms of Covid 19
- The school may have to introduce additional measures as part of their 'Contingency Planning' should there be a significant rise in reported infections
- All children must enter the building through their allocated entrance. Adults will not be able to enter the building with them or speak to staff unless they have made an appointment
- All children should wash hands thoroughly for 20 seconds with soap and warm water when they enter the building and before eating
- Hand sanitiser is available in all entrances, classrooms and workspaces and should be used as required.
- Children should wear clean uniform every day for school and it is advised that these are not worn in the home upon return (tracksuits for PE days)
- Children may bring a school bag. Each day they will need: a water bottle which **MUST** be filled fresh every day and clearly labelled; their lunch in a labelled bag; reading book and reading record. Children must only bring a small, simple pencil case.
- Toilets are allocated to phases (uppers and lowers). Children can only use their toilets and **MUST** wash their hands thoroughly and dry them after using the toilet
- Children need to know, understand and follow 'Catch it – Bin it – Kill it!' message around paper towels/tissues
- **Children do not need a mobile phone or other personal electronic device and must NOT bring them into school**
- ALL children will be expected to behave in a polite, respectful manner towards each other and to ALL staff who may be looking after them. We will maintain our high standards of behaviour at all times using our Core Values, high expectations and rewards to help us do this

**These expectations will be reviewed by all staff and governors as required during the current Coronavirus Pandemic.**
