

## **George Romney Junior School: Strategic Priorities 2017-2018:**

- ✓ To strive to meet the needs of SEND, PPF and vulnerable children in every year group through the continued use of high-impact individualised pupil learning plans
- ✓ Engage, enthuse and embed learning using ICT resources such as active expression pods, virtual reality, programming and digital media
- ✓ To actively target parents of specific children and involve them with their child's learning in a productive, purposeful way
- ✓ To maintain the school as an outward-facing organisation through Peer2Peer work for all subject leaders and links with other organisations
- ✓ To move self-assessment strategies across core subjects into self-correction and improvement of recorded learning

### **At George Romney Junior School, we want the children to know:**

1. We want all children to feel happy and confident and make progress in school
2. We want our classrooms to be lively, exciting places – full of fantastic learning opportunities
3. We need to listen to advice from the staff and let our parents help us too
4. Our teachers are going to talk to other teachers to share good ideas and help each other
5. We are going to practice checking our work ourselves and get really good at correcting it!
