Dear parents, carers and families,

The children have enjoyed an excellent first full week back at school! The Y5/Y6 children have enjoyed their STEM projects sessions with two of our STEM ambassadors from Rolls Royce this week; learning about levers, gears and pulleys. Class teachers have followed up the talk from James and Joe with some fun sessions building working models in K'nex to explore these scientific principles in everyday objects. Y3/Y4 children have begun a book study on 'The Ice Palace' – a good choice for this time of year!

We have a wide range of Extra-curricular activities on offer during this term. Please make sure if your child is interested in attending these activities; that you have completed the permission slip and returned this to the school office. Unfortunately, we cannot allow children to stay after- school for clubs/activities without the correct permissions.

We have lots of positive feedback about the new school calendars that were produced by the Friends of George Romney. They have a great collection of different photos and come with key dates for school already entered! Many have been sold but there are still some copies remaining. Please call into the school office to purchase one any day next week.

With every good wish.

David Reddy
(Headteacher)
